

Setup of the IP BOLD video doorphone with the Synology Surveillance Station

1. Go to Synology Package Center

2. Install Surveillance Station

The screenshot shows the Synology Package Center interface. On the left is a navigation sidebar with options like 'Hledat', 'Nainstalováno', 'Aktualizovat', and 'Prozkoumat'. The main area displays the 'Surveillance Station' package details, including its status ('Spuštěno'), developer ('Synology Inc.'), version ('8.0.0-5123'), and a description in Czech. The description states: 'Surveillance Station je webová aplikace, která dokáže spravovat IP kamery a chránit tak váš domov nebo pracovní prostředí. Díky aplikaci Surveillance Station si můžete prohlížet a nahrávat videa živého zobrazení, nastavit plán nahrávání, přehrávat nahrané...'. A preview window shows a grid of camera feeds.

3. Go to Surveillance Station

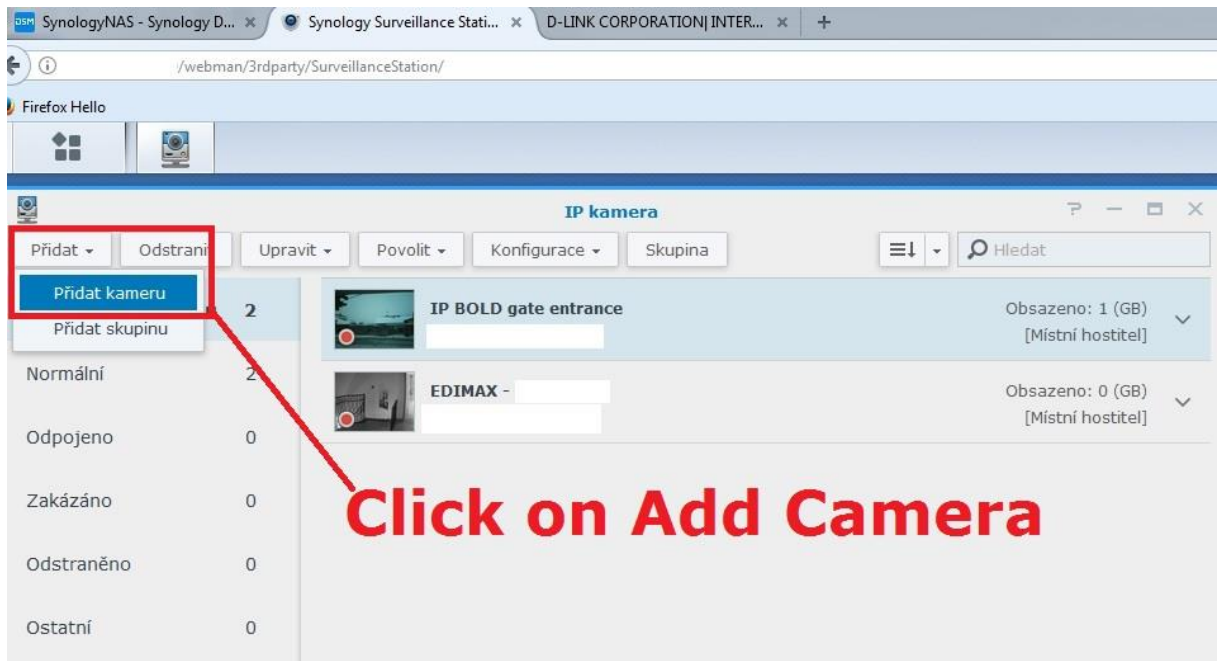

The screenshot shows the Synology DSM dashboard. A red box highlights the application menu icon in the top-left corner. A red arrow points from this icon to the 'Surveillance Station' application tile in the dashboard grid. The tile is labeled 'Surveillance Station' and includes a brief description: 'Surveillance Station je webová aplikace, která dokáže spravovat IP kamery a chránit tak váš domov nebo pracovní prostředí. Díky aplikaci Surveillance Station si můžete prohlížet a nahrávat videa živého zobrazení...'. Other application tiles like 'Ovládací panel', 'File Station', and 'VPN' are also visible.

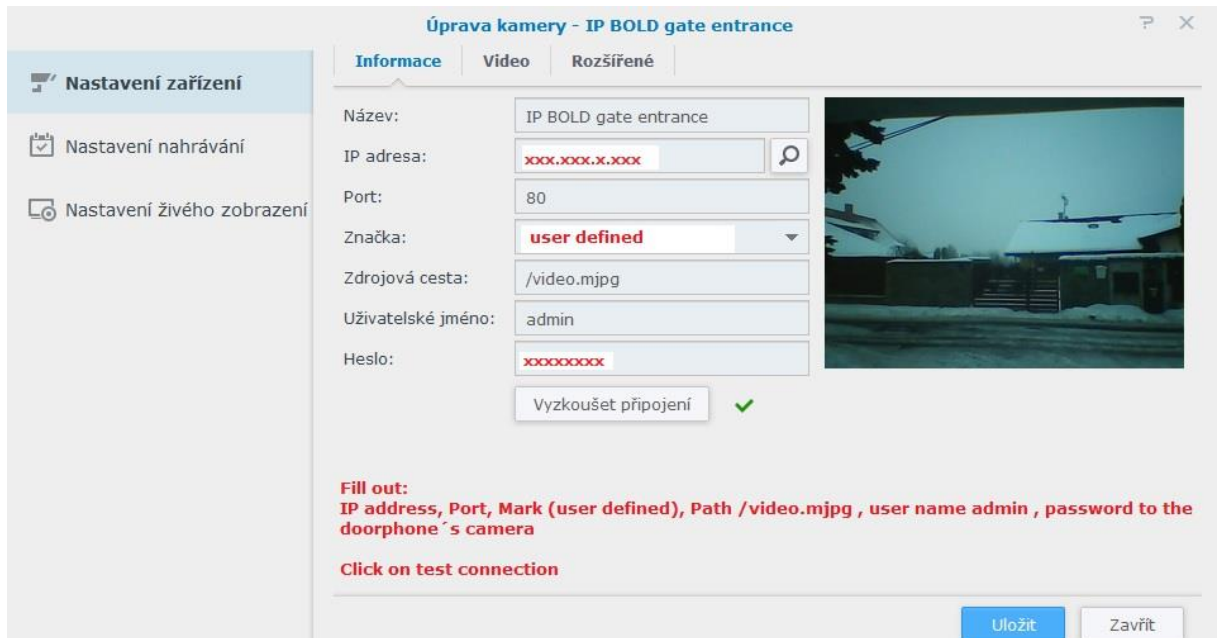

4. Go to IP camera

5. Click on Add Camera

6. Fill out credentials of the doorphone's camera and then click on Save

7. View the video stream or setup more details – recording options
